

222nd Hinode SSC Meeting on 24th June 2025 at 07:00 JST

News: Steven Elrod has retired.

Action items are highlighted in bold text with initials of the assigned person.

Short Summary, Conclusions and Actions

1. Hinode Program and Instrument Status

a. Instrument Status Review

XRT is nominal (KR).

SOT is nominal (MD).

EIS is nominal (SM).

IRIS is nominal (MG).

2. Review and discussion of Action Items from 220th SSC meeting. See below in recent/upcoming HOPs.

3. Review and discussions of open I/HOPs

I/HOPs 81, 130, 393, 412, 485 – all in the calendar in their usual slots. HOP 206 included starting end of August in prep for north pole deep map in September.

4. Any problems with the recent/upcoming HOPs? Have they all been run or are in the queue?

HOP 509 – expecting a better coordination with DKIST proposers after conversation with Ali Tritschler.

5. New HOPs

HOP 511 – prioritize over HOP 509 unless major flare watch. SOT/EIS are satisfied with the HOP proposal. XRT (KR) would like a spec for high cadence and IRIS (MG) to provide an updated program number.

New HOPs to be circulated to teams approx. midway between SSC meetings to improve turnaround times. Also, send new Orbiter HOPs earlier/as they come in.

6. Schedule monthly science reports

SOT is next (August).

7. Next meeting 20/21 August 2025.

8. AOB – none.
